EDUCATION

University of Cabuyao

B.S. in Computer Science

Laguna, Philippines

Expected Graduation, June 2027

- o **Last Completed Semestral GWA:** 1.6
- o **Related Coursework:** Data Structures and Algorithms, Object-Oriented Programming, Discrete Structures, Information Security, Application and Game Development, Software Engineering, Operating Systems

CERTIFICATIONS

Google

- Google Cybersecurity Professional Certificate In progress

IBM

- IT Fundamentals for Cybersecurity Specialization January 2026

Cisco

- Networking Basics January 2026
- Introduction to Cybersecurity December 2025

freeCodeCamp

- Legacy Responsive Web Design V8 December 2024

MF Treinamentos

- Lean Six Sigma Yellow Belt January 2026
- Lean Six Sigma White Belt January 2026

PROJECTS

Adaptive API Rate Limiter

Team Lead

Cabuyao City, Laguna

January 2026 – Present

- Leads 4-member thesis developing adaptive API rate-limiting middleware for resource-constrained MSME contexts
- Architects Heuristic Pattern Classification and Token Bucket mechanisms using Python and FastAPI for traffic analysis
- Manages system evaluation through Locust synthetic simulations and technical audits

SOC Home Lab

Personal Project

Cabuyao City, Laguna

May 2026 – Present

- Built an isolated multi-OS lab using VirtualBox with Kali Linux, Windows 10, and Ubuntu Server
- Configured Splunk SIEM to ingest and analyze real-time endpoint logs via Universal Forwarders

Secure Enterprise Network Hardening Lab

Personal Project

Cabuyao City, Laguna

February 2026 – March 2026

- Designed and implemented a segmented enterprise network with 5 VLANs using Cisco Packet Tracer
- Configured Router-on-a-Stick inter-VLAN routing and implemented extended ACLs
- Documented security architecture decisions and ACL policies in a professional GitHub repository

AuraTech

Team Lead

Cabuyao City, Laguna

August 2025 – December 2025

- Led a 5-member team in building a gaming-themed e-commerce website for tech gadgets as an academic project
- Managed task distribution, milestones, and integration across UI/UX, frontend, and backend components
- Contributed to frontend development and ensured consistent design, functionality, and overall project quality

EXPERIENCE

AWS Cloud Club – University of Cabuyao

Technical Committee

Cabuyao City, Laguna

November 2025 – Present

University of Cabuyao – College of Computing Studies

Student Developer

Cabuyao City, Laguna

August 2023 – Present

SKILLS

Programming: Java, Python, JavaScript, HTML/CSS, MySQL, Node.js, React.js, Tailwind CSS, Bootstrap, Laravel, SPL

Tools: VS Code, PyCharm, Eclipse, VirtualBox, Docker, Git & GitHub, Postman, Cisco Packet Tracer, Nmap, Wireshark, Hydra
