EDUCATION

University of Cabuyao — **Laguna, Philippines**
B.S. in Computer Science — *Expected Graduation, May 2027*

- **Awards and Recognition:** Dean's Lister, Best in Thesis Candidate
- **Related Coursework:** Data Structures and Algorithms, Object-Oriented Programming, Discrete Structures, Information Security, Application and Game Development, Software Engineering, Operating Systems

PROJECTS

SignKo — **Cabuyao City, Laguna**
Lead Programmer — *September 2026 – Present*

- Designing a bidirectional FSL translation mobile app using Flutter and Dart.
- Engineering real-time BLE pipelines to stream TinyML gesture data from ESP32 gloves.
- Implementing Riverpod state management and offline STT/TTS for app accessibility.

SentiRate — **Cabuyao City, Laguna**
Team Lead — *January 2026 – October 2026*

- Led a 4-member team developing adaptive rate-limiting middleware to protect API architectures.
- Architected Heuristic Pattern Classification and Token Bucket filters using FastAPI for traffic analysis.
- Evaluated system resilience via Locust traffic simulations and technical audits.

SOC Home Lab — **Cabuyao City, Laguna**
Personal Project — *May 2026 – August 2026*

- Built an isolated multi-OS lab using VirtualBox with Kali, Windows, and Ubuntu Server.
- Configured Splunk SIEM to ingest and analyze real-time logs via Universal Forwarders.
- Developed custom monitoring dashboards to proactively identify simulated anomalies.

Secure Enterprise Network Hardening Lab — **Cabuyao City, Laguna**
Personal Project — *February 2026 – March 2026*

- Designed a segmented enterprise network with 5 VLANs using Cisco Packet Tracer.
- Implemented Router-on-a-Stick routing and extended ACLs to enforce traffic boundaries.
- Documented security architecture decisions and policy logs in a GitHub repository.

AuraTech — **Cabuyao City, Laguna**
Team Lead — *August 2025 – December 2025*

- Led a 5-member team building a gaming e-commerce web platform for tech gadgets using React and Bootstrap.
- Architected the backend using Laravel PHP and MySQL to manage data and transactions.
- Managed task distribution, milestones, and integration across UI/UX, frontend, and backend components

CERTIFICATIONS

Google

- *Google Cybersecurity Professional Certificate* — *July 2026*

Cisco

- *Cyber Threat Management (DICT)* — *March 2026*
- *Networking Basics* — *January 2026*
- *Introduction to Cybersecurity* — *December 2025*

IBM

- *IT Fundamentals for Cybersecurity Specialization* — *January 2026*

freeCodeCamp

- *Legacy Responsive Web Design V8* — *December 2024*

EXPERIENCE

AWS Cloud Club – University of Cabuyao — **Cabuyao City, Laguna**
Technical Committee — *November 2025 – July 2026*

SKILLS

Programming: Java, Python, JavaScript, HTML/CSS, MySQL, Node.js, React.js, Dart, Tailwind CSS, Bootstrap, Laravel, SPL
Tools: VS Code, Eclipse, VirtualBox, Docker, Git & GitHub, Postman, Antigravity, Cisco Packet Tracer, Splunk
